DESCRIPTION

With *3D Wall Carve*, Atlas Concorde inaugurates a new way of interpreting ceramic reliefs: a range of surfaces with three sober tones characterized by refined, minimal microtextures. The collection consists of five different three dimensional textures obtained by digitizing the engraving of a plaster cast carved by hand using the traditional tools of artisanal craftsmanship. Inspired by that suggestion, the Italian designer Piero Lissoni developed two of those textures: Squares and Sign to enrich the collection's design potential. The natural irregularity of the three-dimensional reliefs lends itself to evocative light effects, creating interior designs that are simple yet with a sophisticated visual impact and able to infuse style and design into any type of interior space.

APPLICATIONS

3D Wall Carve is ideal for an interior application on walls in residential and commercial projects (light traffic).

VALUES	10% < EV ≤ 20%	≥ 15 N/mm ² ≥ 600 N	GA GLA GHA	5	PRE-CONS.: 20% %

INSTALLATION AND MAINTENANCE

It is suggested to lay tiles with a joint of 2-3 mm. ■ Use high quality adhesive and grout from a manufacturer such as Mapei, following manufacturer's recommendations and depending on site conditions. ■ As soon as the joints have fully set, it is advisable to proceed to the initial post-construction cleaning as described by the manufacturer. ■ Daily maintenance can be performed with a neutral detergent, the use of abrasive cleaners is not recommended. ■ When installing, mix the content of several boxes to ensure even distribution of the tile shading.
