INSTALLATION AND MAINTENANCE

It is suggested to lay tiles with a joint of 2-3 mm. ■ Use high quality adhesive and grout from a manufacturer such as Mapei, following manufacturer's recommendations and depending on site conditions. ■ It is recommended that you lay the 22,5x90 cm and 45x90 cm formats side by side or offset by 2/3. Fixing in a 50% staggered configuration is not advised. ■ As soon as the joints have fully set, it is advisable to proceed to the initial post-construction cleaning as described by the manufacturer. ■ Daily maintenance can be performed with a neutral detergent.
