STRONG METRO POLITAN ATTITUDE

THE CERAMIC MATERIAL
EXPRESSES THE METROPOLITAN
EVOLUTION OF STYLE.

La materia ceramica esprime
l'evoluzione metropolitana dello stile.

The matt finish with a post-industrial contemporary charm reproduces, with a pleasant random effect, the cement streaks that reveal all the beauty of raw materials. The marked colour shading exalts different graphics inspired by concrete, oxidized metal, stone and wood.

La finitura matt dal fascino post-industriale contemporaneo ricalca con piacevoli irregolarità le striature del cemento che colgono tutta la bellezza della materia grezza. L'elevata stonalizzazione enfatizza le grafiche diverse ed estremamente caratterizzate che si ispirano al cemento, al metallo ossidato, alla pietra e al legno.

La finition mate au charme post-industriel contemporain reprend parfaitement les stries du ciment qui expriment toute la beauté du matériau brut. Le fort effet dénuancé accentue les graphismes variés et extrêmement caractérisés qui s'inspirent au ciment, au métal oxydé, à la pierre et au bois.

Die matte Oberfläche mit ihrem postindustriellen Charme ahmt mit angenehmen Unregelmäßigkeiten die Eigentümlichkeiten von Beton nach, welche die ganze Schönheit des Rohstoffs erfassen. Die starke Schattierung betont die verschiedenen, charakteristischen Grafiken, die durch Beton, oxidiertes Metall, Stein und Holz inspiriert sind.

El acabado mate, con su encanto postindustrial contemporáneo, resalta con agradable irregularidad las estrías del cemento, que captan toda la belleza de la materia en bruto. Su elevada destonalización enfatiza los distintos motivos gráficos, sumamente característicos, que se inspiran en el cemento, el metal oxidado, la piedra y la madera.

Матовая отделка поверхности с оригинальным постиндустриальным звучанием отражает приятную неровность и простую красоту цемента. Выраженная цветовая разнородность дана разнообразием вдохновивших графику материалов – цемента, окисленного металла, камня, дерева.

THE CERAMIC MATERIAL

La materia ceramica si esibisce
negli spazi dello shopping
contemporaneo.

In the most exclusive shopping venues, where style merges with the need for high technical standards and ease of maintenance, the matt finish is stunning thanks to its delicate brushed effect of a micro-textured surface characterised by varied and marked graphics.

Nei luoghi dello shopping più esclusivo, in cui lo stile si coniuga a esigenze di prestazioni tecniche e di facilità di manutenzione, la finitura matt stupisce con le leggere spoltature della superficie microstrutturata, contraddistinta da grafiche diverse e fortemente caratterizzate.

Dans les lieux du shopping le plus exclusif, où le style s'unit aux exigences des prestations techniques et de l'entretien facile, la finition mate surprend par ses légers effets de spatule à la surface micro-structurée, qui se distingue par des graphismes variés et fortement caractérisés.

In den exklusivsten Einkaufstraßen, in denen Stil und Design mit den Anforderungen technischer Leistungen und Pflegeleichtigkeit kombiniert werden, verblüfft das matte Finish mit seinem leichten Spachtelfekt der mikrostrukturierten Oberfläche, die sich durch verschiedene und markante Grafiken kennzeichnet.

En los lugares dedicados al shopping más exclusivo, en los que el estilo se une a la necesidad de altas prestaciones técnicas y de facilidad de mantenimiento, el acabado mate sorprende con el espatulado leve de la superficie microestructurada, que se distingue por diferentes motivos gráficos muy característicos.

В эксклюзивных торговых пространствах, где от покрытий, помимо стильного вида, требуются высокие технические и эксплуатационные характеристики, матовая микроструктурная поверхность восхищает своим легким «штукатурным» рельефом и разнообразием рисунка.

The Ceramics of Italy logo is an exclusive identification on ceramic products which have effectively been made in Italy by companies that are a part of the Confindustria Ceramic and who adhered to its Ethical Code. This Code, promoted and created by Confindustria Ceramic, commits all companies to communicate, clearly and with transparency, the origin of their products.

www.eco-label.com

Il marchio Ceramics of Italy contrassegna esclusivamente i prodotti ceramici effettivamente realizzati in Italia da un'azienda associata a Confindustria Ceramic che ha sottoscritto il Codice Etico. Il Codice, redatto dalla stessa Confindustria Ceramic, impegna a comunicare con chiarezza l'origine dei prodotti.

www.eco-label.com

Le label Ceramics of Italy distingue exclusivement les produits en céramique qui sont effectivement fabriqués en Italie par les sociétés associées à Confindustria Ceramic ayant souscrit le Code Éthique. Ce Code, rédigé par Confindustria Ceramic, engage ceux qui le souscrivent à communiquer clairement l'origine des produits.

www.eco-label.com

The European logo of environmental quality certifies compliance with the European environmental criteria and is only given to products that, compared to those of competitors, have a low environmental impact. Ecolabel is a quality award that identifies and promotes the most eco-friendly products. The environmental criteria evaluate the impact on the entire lifecycle: extraction of raw materials, manufacturing, distribution, use and final disposal.

Il marchio comunitario di qualità ecologica certifica il rispetto di criteri ambientali stabiliti a livello europeo ed è rilasciato esclusivamente a prodotti con un ridotto impatto ambientale rispetto ai concorrenti. Ecolabel è quindi un attestato di eccellenza che segnala e promuove i prodotti più ecologici e rispettosi dell'ambiente. I criteri ambientali valutano l'impatto in tutte le fasi del ciclo di vita: estrazione delle materie prime, processi di lavorazione, distribuzione, uso, smaltimento.

Le label communautaire de qualité écologique certifie le respect de critères environnementaux au niveau européen et n'est délivré qu'aux produits qui ont un impact environnemental réduit par rapport aux concurrents. L'Ecolabel est donc une attestation d'excellence qui signale et promeut les produits les plus écologiques et respectueux de l'environnement. Les critères environnementaux considèrent l'impact pour chaque phase du cycle de vie : extraction des matières premières, processus de fabrication, distribution, utilisation, élimination.

Die Marke ökologischer Qualität der europäischen Gemeinschaft, das europäische Umweltzeichen (Ecolabel), bestätigt die Einhaltung umweltschonender Produktionskriterien, die auf europäischer Ebene vereinbart worden sind, und wird ausschließlich an Produkte, deren Auswirkungen auf die Umwelt im Vergleich zu Mitbewerbern gering sind, verliehen. Ecolabel ist ein Attest für Außergewöhnlichkeit und fördert und unterstützt ökologische und umweltverträgliche Produkte. Die umweltschonende Kriterien gelten in allen Phasen des Lebenszyklus eines Produktes: beim Abbau von Rohstoffen, bei Bearbeitungsprozessen, beim Vertrieb und bei der Entsorgung.

La marca comunitaria de calidad ecológica certifica el respeto de los criterios ambientales establecidos a nivel europeo y es asignada exclusivamente a productos de impacto ambiental reducido respecto a la competencia. Ecolabel es entonces un atestado de excelencia que indica y promueve los productos altamente ecológicos y respetuosos con el ambiente. Los criterios ambientales evalúan el impacto en todas las fases del ciclo de vida: extracción de las materias primas, procesos de elaboración, distribución, uso y eliminación.

Знак экологического качества ЕС удостоверяет соблюдение экологических требований, установленных на европейском уровне, и присваивается товарам, оказывающим меньшее воздействие на окружающую среду, по сравнению с существующими аналогами. Следовательно, Ecolabel является свидетельством безопасности продукции и внимательного отношения производителя к вопросам охраны природы. При выдаче сертификата оценивается воздействие изделий на среду на протяжении всего их жизненного цикла: от добычи сырья и производства до сбыта, эксплуатации и утилизации.
