DESCRIPTION

Patina by *Ragno* is a colored body porcelain stoneware collection available in six colors. *Patina* is a refined, original version of a ceramic surface with a waxed appearance which, depending on colour, may recall the iridescent glints of metal or worn resin. The large surfaces, water-jet decors and mosaics all extend the collection's potential and expressive scope in refined, sophisticated locations.

INSTALLATION AND MAINTENANCE

It is suggested to lay tiles with a joint of 2-3 mm. ■ Use high quality adhesive and grout from a manufacturer such as Mapei, following manufacturer's recommendations and also depending on site conditions. ■ As soon as the joints have fully set, it is advisable to proceed to the initial post-construction cleaning as described by the manufacturer. ■ Daily maintenance can be performed with a neutral detergent. ■ When installing, mix the content of several boxes to ensure an even distribution of the tile shading.
