INSTALLATION AND MAINTENANCE

It is suggested to lay tiles with a joint of 2-3 mm. ■ Using a sanded grout as Mapei Ultracolor is recommended. ■ It is recommended that you lay side by side or offset by 2/3 the rectangular formats. Laying in a 50% staggered configuration is not advised. ■ As soon as the joints have fully set, it is advisable to proceed to the initial post-construction cleaning as described by the manufacturer. ■ Daily maintenance can be performed with a neutral detergent.
